

6. During use, the tablets become lighter in colour. The unit works by vapourising the insecticide in the tablet, killing any mosquitoes and other flying insects in the room. When exhausted, the tablet changes in colour from blue to white.

7. To replace tablet, remove unit from plug socket and insert a fresh tablet into the IN slot. This will eject the used tablet. This pack includes 15 Lifesystems Mosquito Killer Tablets. Replacement tablets are available in camping and outdoor shops.

Please note that the pins on the Lifesystems Mosquito Killer are intentionally tapered. This makes it easier to use the unit in a wider variety of plug sockets

**SERVICE:** Should the Lifesystems Electric Mosquito Killer fail to operate check that the supply fuses are not blown and that the supply is switched on. This device contains no home serviceable components.

**TABLET DETAILS:**

Active Ingredient: PRALLETHRIN 0.99% w/w. Tablet weight: 1g  
See inside for details of use. Tablets made in ITALY.

**USE IN DIFFERENT COUNTRIES:**

Whilst we strive to ensure accuracy of this list, some countries do not have standard sockets and therefore may vary between regions. For this reason, Lifesystems cannot accept responsibility for the accuracy of this information. As a guide, we have listed a number of commonly visited countries where this unit will operate.

**LIFESYSTEMS**

**Electric Mosquito Killer Unit**  
Instructions for Use

Manufactured in China for  
Lifemarque Limited

This product is approved under the Control of Pesticides Regulations 1986 for use as directed HSE. 8691.

**PRECAUTIONS:** Read all instructions before use and keep for future reference.

**USE ONLY AS DESCRIBED ON LABEL**  
**KEEP TABLETS AWAY FROM CHILDREN AND ANIMALS**  
**WASH HANDS AFTER HANDLING TABLETS**  
**KEEP UNUSED TABLETS IN A SAFE PLACE**

Never use the unit without a tablet or with a tablet that has been used for more than 10 hours. Do NOT pack away until completely cool. Ensure that the adaptor is compatible with mains supply (this unit is designed for voltages in the range 110-240 Volts)

**SUITABILITY:** Suitable for worldwide use from any 110-240V AC power supply. Fits standard round 2-pin sockets, as found in European countries. For use in other socket types, we recommend using a Lifesystems Travel Adaptor.

**STATUTORY CONDITIONS RELATING TO USE:**

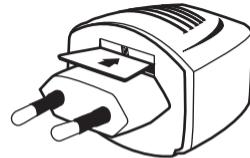

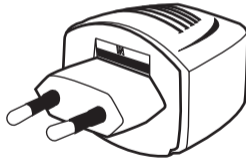

The (COSHH) Control of Substances Hazardous to Health Regulations 1988 may apply to the use of this product at work.

**FOR USE ONLY AS AN INSECTICIDE**  
**FOR INDOOR USE ONLY**  
**USE 1 UNIT PER AVERAGE SIZE ROOM (APPROX. 30 CUBIC METRES) FOR A MAXIMUM OF 12 HOURS PER DAY**  
**TABLETS FOR USE ONLY IN THE HEATING APPLIANCE SPECIFIED**  
**DISPOSE OF USED TABLETS AND PACKAGING SAFELY**  
**DO NOT STORE PART USED TABLETS**  
**DANGEROUS TO FISH AND OTHER AQUATIC LIFE**  
**READ ALL PRECAUTIONS BEFORE USE**  
**THIS MODEL IS NOT SUITABLE FOR USE IN THE UK**

This product is manufactured to comply with the radio interference requirements of EEC directive 87/308/EEC

**INSTRUCTIONS:**

1. Remove the protective cap from the unit.
2. Take one tablet out of packaging and insert through top slot marked IN into the Lifesystems Electric Mosquito Killer

3. Plug Mosquito Killer into wall socket
4. The unit will start to knock mosquitoes down within one minute. However, to ensure best results, if you are using the unit in the room where you intend to sleep, we recommend that you switch on the Mosquito Killer one hour before going to bed
5. Each tablet should last approximately 10 hours
